# 75 YEARS

I believe in the home as an inspiring and happy center of family life, comfortable and attractive, a place for relaxation and work where pleasures and responsibilities are shared.

I believe in the home, its contribution to community life which reflects the development of the homemaker and her family.

I believe in the homemaker, alert, diligent, in search of better ways of doing ordinary things for the welfare and happiness of her family.

I believe in the homemaker as a leader in her community, in her responsibility for passing on to others her mastered skills and knowledge.

I believe in the fellowship that comes through the homemakers organization, the exchange of ideas, the joy of knowledge shared with others thus broadening our lives and lifting household tasks above the commonplace.

For these opportunities I am grateful. I am thankful for the courage of yesterday, the hope of tomorrow, and a growing consciousness of God's love always.
